Retirement SCD
(Service Computation Date)

- Your retirement SCD makes up your length of service
- And includes:
  - Creditable civilian service
  - Creditable military service

Issues that impact your SCD
- Temporary service
- Refunded service
- Active duty/reserve/national guard military service
- Military retirements
- Post 1956 military deposits
Annuity Computation
Primary Basis

Length of service

- Civilian
- Military
- Sick leave (CSRS and FERS with CSRS component)

High-3 average salary

Highest rate of basic pay in effect over any three consecutive years of service
CSRS/CSRS OFFSET
(Civil Service Retirement System)

Three step formula

1.5% x high-3 first 5 yrs of service
+ 1.75% x high-3 next 5 yrs of service
+ 2% x high-3 x all service (yrs & months)
Over ten including credit for Sick leave

= Annual annuity (divide by 12 for monthly)
FERS
(Federal Employee’s Retirement System)

Two formulas

1% x high-3 x years and months of service
(If under age 62 check for annuity supplement eligibility)

1.1% x high-3 x years & months of service
(At least age 62 with 20 years of service or more)
